**---In the BUSINESS/JOBS category, the NYC Summer Youth Employment Program (SYEP)** application has been posted online (see BUSINESS section for details). This program is open to all high school students, and provides paid opportunities in a wide variety of settings (along with the similar NYC-funded **Ladders for Leaders** job program for juniors & seniors over 16). Students are selected by lottery, but they must apply & select specific ‘providers.’ Most students should consider applying even if they apply to other programs— just in case their other options don’t work out.

Also in this section, the **NYC Exploring** program offers free after-school sessions in the fields of Engineering/Architecture, Law (with the Queens & Brooklyn DA

offices), Medicine (with Lenox Hill Hospital), Aviation (at LaGuardia Airport), and more – these begin soon & students may attend any sessions they are interested in.

---In the LEADERSHIP/GOVERNMENT category, there are numerous spring & summer opportunities. For example, The **NYU Democracy Scholars** for current juniors combines small seminars in political philosophy and social justice activism, with additional personalized support with the college admissions process. It meets for two weeks in the summer, followed by periodic meetings during the 2023-2024 school year. **The New York Historical Society's Student Historian Program** allows interested students (9<sup>th</sup>, 10<sup>th</sup>, and 11<sup>th</sup> grades) to spend the summer working with curators & experts in researching and developing exhibitions and helping at the museum. For female students, the **Sadie Nash and Bella Abzug summer leadership programs are popular options to consider.** **The National Labor Relations Board** virtual summer program is an excellent opportunity to learn about labor law – it is open to 10<sup>th</sup>, 11<sup>th</sup>, and 12<sup>th</sup> graders. **And the Youth Leadership Councils** sponsored by the NYC Department of Social Services meet occasionally throughout the spring term – they are open to all and allow students to work with officials & experts on current community issues.

Questions, suggestions, and information about other opportunities are always welcome and appreciated, and may be sent to Internship/Opportunity Coordinator Harvey Blumm at: [hblumm@stuy.edu](mailto:hblumm@stuy.edu) - we will share your helpful information with the Stuy community!

And, as always, students and parents should feel free to contact Harvey Blumm for advice & assistance: [hblumm@stuy.edu](mailto:hblumm@stuy.edu)

## **2- Co-creating Future: Augmented Reality As Crystal Ball**

“How can the art of divination, or fortune-telling, guide us to rethink software as a system of healing, and how can we use software to develop healing tools? Inspired by the I Ching, an ancient text of Chinese wisdom and the world’s oldest oracle, artist and educator Zhenzhen Qi takes us through a variety of cultural divination practices to collectively design new or alternative patterns for fortune-telling. Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at [hblumm@stuy.edu](mailto:hblumm@stuy.edu) with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
