CATEGORY TABLE OF CONTENTS:

(**Download this entire PDF document** in order to use the following links to jump to your area(s) of interest)

For ease of use, these newsletters are organized by different categories, such as Academic Programs, Business Internships & Jobs, STEM Opportunities, Community Service, and so on.

Here are some highlights for this week:

For students who enjoy the visual & performing arts, the deadline for the free **Summer Arts Institute** (at Frank Sinatra HS in Astoria, Queens) has been extended to February 8th. Current 9th, 10th and 11th graders may apply. There is also an in-person '**Arts Careers Open House'** afterschool event offered by the Arts Connection non-profit group on February 1st in Manhattan. And the **Whitney Museum's Youth Insights** spring program allows students to engage with artists & curators at their weekly sessions –the application deadline is January 31st!

In the STEM section, there are numerous opportunities to peruse. **STEM Matters** is a free one-week program during the spring break, and it offers a variety of different programs throughout the city. The **NYU GSTEM** program for juniors also covers various STEM fields – the application deadline is February 1st! **Cooper Union's STEM Saturdays** focuses on Virtual Reality innovations and is is open to current 9th, 10th, and 11th graders. The **New York Historical Society's Tech Scholars** programs offers female-identifying students both a weekly spring term series of sessions (application deadline: January 29th) and a one-week (4/10 – 4/14) spring break program (3/5 deadline). And the **Quantum Computing Introductory Course** is a free virtual four-day opportunity for all students to learn about this exciting new field of computer science (application deadline: January 29th!).

There are several new **writing contests**, ranging from STEM Writing to Poetry, Mystery writing and more- some have February 1st application deadlines.

And, in the LEADERSHIP section, the TGR Foundation offers a free virtual interactive **Scholarship Application Workshop** on January 31st.

Questions, suggestions, and information about other opportunities are always welcome and appreciated, and may be sent to Internship/Opportunity Coordinator Harvey Blumm at: hblumm@stuy.edu - we will share your helpful information with the Stuy community!

And, as always, students and parents should feel free to contact Harvey Blumm for advice & assistance: hblumm@stuy.edu .

Deadline Approaching: Inspiring Girls* Summer Expeditions

"Inspiring Girls* Expeditions is a tuition-FREE, 12-day wilderness science education program for 16-18-year-old high school cisgender girls and transgender, agender, Two Spirit, nonbinary, intersex, and genderqueer youth. All interested students are encouraged to apply, even (especially) if they don't feel like they fit the "typical" image of a scientist or outdoors person. The students we most want to connect with often believe they are not qualified enough for our program, but we know from years of experience that the support of a trusted adult (like a mentor or teacher) can make all the difference in a student finding the confidence to apply.

The aim of this program is to provide each participant with a unique opportunity to move beyond their comfort zone through field-based science research projects, wilderness exploration, and nature-based art. We do not consider a student's grades in our selection process; we just want to connect with participants ready to explore their own curiosity, creativity, and courage. In the summer of 2023 (Covid permitting), supportive, experienced, and knowledgeable guides and scientists will lead participants in mountaineering, kayaking or packrafting in Alaska, or rock climbing in Colorado. Please note that travel outside of the USA is not required to participate in this program."

Program Ongoing: Data for the People (D4P) Science and Medicine – How Do We Study Ourselves?

"During this season of D4P, we'll explore the science of how we study ourselves, and how our complexity, both as biological systems and as people with unique lives and identities, creates challenges and opportunities for improving human health. We'll draw throughlines from the past to the present, examining how historical biases and power structures have influenced the way scientific knowledge is generated, valued, and transformed into medical advances. Drawing from recent research, we'll consider the question "how do we study ourselves?" through topics like the ethics of genome sequencing studies, the rationale for gender- and race-balanced clinical trials, and the role of social inequities in healthcare access and outcomes. We'll also explore new, innovative practices to ask the next, even more important question: "how do we get better at it?"

Event Ongoing: **Data for the People (D4P) Science and Medicine – How Do We Study Ourselves?**

"During this season of D4P, we'll explore the science of how we study ourselves, and how our complexity, both as biological systems and as people with unique lives and identities, creates challenges and opportunities for improving human health. We'll draw throughlines from the past to the present, examining how historical biases and power structures have influenced the way scientific knowledge is generated, valued, and transformed into medical advances. Drawing from recent research, we'll consider the question "how do we study ourselves?" through topics like the ethics of genome sequencing studies, the rationale for gender- and race-balanced clinical trials, and the role of social inequities in healthcare access and outcomes. We'll also explore new, innovative practices to ask the next, even more important question: "how do we get better at it?"

Eligible: All students

Dates: Weekly until February 15 (Wednesdays from 5 – 6 pm)

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: hblumm@stuy.edu

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at hblumm@stuy.edu with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
