For ease of use, these newsletters are organized by different categories, such as Academic Programs, Business Internships & Jobs, STEM Opportunities, Community Service, and so on.

The next month or two is *prime time* for summer programs, internships, and courses to post their applications online. All have scheduled deadlines - whatever one's area of interest or preferred type of activity, please start scanning the categories below and start applying!

As always, students and parents should feel free to contact Harvey Blumm for advice & assistance at: hblumm@stuy.edu

Here are some highlights for this week:

---In the EVENTS section, students thinking of taking a college level class in spring or summer can check out this coming Tuesday's (1/24) after school (in-person) "**Summer National Program Fair**" at John Jay College in Manhattan; there will be a wide variety of programs represented.

And students thinking of taking a college level class in the spring or summer can check out the January 28th virtual **Pre-College Program Fair** (repeated on 2/25). Many major colleges & universities will participate.

---In the PARKS and JOBS sections, all students can apply to volunteer or work (depending on age) as Discovery Guides or in other positions at local zoos and the Aquarium via the **NYC Wildlife Conservation Society's Discovery Guide Program**.

---In the STEM section, there are numerous new opportunities to peruse. **MIT** offers several different programs, including its **Lincoln Lab** free virtual spring term STEM courses, along with virtual & in-person summer options – preference to current juniors. **Stanford University's SSTEM Summer Program** welcomes applications from current juniors and seniors.

The U.S. Army sponsors their **High School Apprenticeship Program** for current 10th & 11th graders. Students get to work on real research projects at NYU, CUNY, and other local universities – and they receive a paid stipend!

And all female 9th graders can apply to the free, six-week summer **Goals for Girls STEM Program**.

Questions, suggestions, and information about other opportunities are always welcome and appreciated, and may be sent to Internship/Opportunity Coordinator

Harvey Blumm at: hblumm@stuy.edu - we will share your helpful information with the Stuy community!

And, as always, students and parents should feel free to contact Harvey Blumm for advice & assistance.

National Labor Relations Board Student Ambassador Program

"The National Labor Relations Board is a federal agency that enforces the National Labor Relations Act. Through the NLRB's **Student Ambassador Program**, students will get to engage with NLRB attorneys and investigators, and will learn about the rights of workers and the responsibilities of employers and unions. Students will complete a learning phase and then students will get the opportunity to create a public facing project that the NLRB will help shape and promote. **Each student will be assigned an attorney or investigator as a mentor for the public facing project.**

Examples of a public facing project can be an article in a student or local newspaper or a presentation with an NLRB representative in a class or conference. This Program is a wonderful opportunity for students to develop familiarity with the law, law enforcement, and federal agencies. Equally as important, students will get the chance to create a project centered on what they have learned. They will develop their project

skills, use their creativity, and step forward as leaders. At the end of the Program, they will receive a Certificate of Accomplishment.”

Eligible: Current sophomores, juniors, and seniors

Dates:

Learning Phase: July 17 to August 18. Mondays, Tuesdays, and Wednesdays, 5 p.m. to 6:30 p.m. (hours may be adjusted to accommodate all participants)

Student Wellness Poster Contest: Health Resource Room Promotion

“Health Resource Rooms are safe, supportive, inclusive places in your school building where students can receive confidential support and services from trained DOE staff.

The Office of School Wellness Programs is excited to use student voices in the creation of new Health Resource Room posters. By using poster designs created for

and by students like you, we hope to increase the number of students who know about and use Health Resource Rooms in middle and high schools across NYC. Each winning student will receive a \$200 Visa gift card in spring 2023; their school will receive an \$800 grant in fall 2023 to start or sustain its Health Resource Room. The winning posters will be printed and distributed to secondary schools citywide, starting in fall 2023.”

Deadline Approaching: Inspiring Girls* Summer Expeditions

“Inspiring Girls* Expeditions is a tuition-FREE, 12-day wilderness science education program for 16-18-year-old high school cisgender girls and transgender, agender, Two Spirit, nonbinary, intersex, and genderqueer youth. All interested students are encouraged to apply, even (especially) if they don’t feel like they fit the “typical” image of a scientist or outdoors person. The students we most want to connect with often believe they are not qualified enough for our program, but we know from years of experience that the support of a trusted adult (like a mentor or teacher) can make all the difference in a student finding the confidence to apply.

The aim of this program is to provide each participant with a unique opportunity to move beyond their comfort zone through field-based science research projects, wilderness exploration, and nature-based art. We do not consider a student’s grades in our selection process; we just want to connect with participants ready to explore their own curiosity, creativity, and courage. In the summer of 2023 (Covid permitting), supportive, experienced, and knowledgeable guides and scientists will lead participants in mountaineering, kayaking or packrafting in Alaska, or rock climbing in Colorado. Please note that travel outside of the USA is not required to participate in this program.”

Program Ongoing: Data for the People (D4P) Science and Medicine – How Do We Study Ourselves?

“During this season of D4P, we’ll explore the science of how we study ourselves, and how our complexity, both as biological systems and as people with unique lives and identities, creates challenges and opportunities for improving human health. We’ll draw throughlines from the past to the present, examining how historical biases and

power structures have influenced the way scientific knowledge is generated, valued, and transformed into medical advances. Drawing from recent research, we'll consider the question "how do we study ourselves?" through topics like the ethics of genome sequencing studies, the rationale for gender- and race-balanced clinical trials, and the role of social inequities in healthcare access and outcomes. We'll also explore new, innovative practices to ask the next, even more important question: "how do we get better at it?"

“Students will spend an hour independently working on engaging and beautiful math problems, hand-selected by MoMath’s advisory council of math PhDs. Choose whichever challenges you like and explore them with the guidance and mentorship of an expert mathematician. If you love math and want to experience the incredible joy of mathematical discovery, you won’t want to miss this enjoyable monthly program.”

Eligible: All students

Dates: Once a month on a Wednesday

Location: Virtual

Cost: Free

Application Deadline: **Rolling Basis**

GOALS for Girls Summer Program

“GOALS (Greater Opportunities Advancing Leadership and Science) for Girls is a FREE six-week summer intensive all about STEM. Spend six weeks at the Intrepid Museum diving deep into topics such as aviation, space science, technology, engineering, and more. Engage in hands-on activities, explore the city and beyond through field trips, and learn about career paths in STEM by meeting incredible women actively working in STEM jobs. An information session is scheduled for February 4 at 10:30 AM.”

Eligible: Current 9th – graders who identify as female

Dates: July 3 - August 11

Location: The Intrepid Museum (Hudson River at 46th Street)

Cost: Free

Application Deadline: March 17 (Information Session on February 4)

iOne Lab Summer Studio

“ONE Lab Summer Studio runs in 2-week summer sessions for high school students. Each session consists of a design studio, discussion, lectures, workshops, worksite tours and guidance on advanced study and potential careers in environmental design. Students’ll learn about topical environmental issues, hear from top design experts in the field and work with biomaterials in designing and producing objects that address today’s environmental challenges.”

Eligible: All students

Dates: Session 1 (June 20 – 30), Session 2 (July 5 – 15), OR Session 3 (July 18 – 28)

Location: In-person and virtual options available

Cost: Various (\$1,650 - \$1,875, full scholarships available)

Inspirit AI Scholars Sessions

“AI Scholars Live Online is a 10-session (25-hour) program that exposes high school students to fundamental AI concepts and guides them to build a mentor-led socially impactful AI project. Students will explore applications, create foundational AI concepts, and develop AI programming skills before developing a Social Good project. The program also includes college and career preparation workshops, to prepare for top-ranked CS/AI programs and pursue ventures or careers in AI. After the program, students gain access to an online platform for continuous learning, including additional projects in a variety of domains. No programming or computer science experience is required. Advanced cohorts are available for students with prior programming experience.”

Eligible: All Students

Dates: Early June - Early August

Location: Virtual

Cost: \$1,100 (Spring & Summer)

Application Deadline: **February 15**

STEM Center SHINE Engineering Summer Programs

“USC Viterbi School of Engineering’s Summer High School Intensive in Next-Generation Engineering (SHINE) offers students the chance to join a USC Viterbi research team for seven weeks to discover how engineering addresses our real-world

problems in various fields, including biomedicine, robotics, aerospace, and more. Each student works with an assigned professor and a mentor dedicated to training them in experimental lab work or computational research. Each student works on authentic, immersive lab projects within their choice of innovative research.'

Eligible: Freshmen, sophomores, juniors

Dates: July 12 – July 28

Location: TBD: If in-person, on the USC campus

Cost: \$35 application fee, fee waivers available (apply by 2/28/2023)

\$5,750 paid in 1-3 installments or full amount, scholarships available for low-income students

The Yale Summer Program in Astrophysics (YSPA)

YSPA is a research program in which students spend two weeks virtually learning skills in astronomy and programming. Then, they are invited to the Yale campus for four weeks to develop a complex astrophysics modeling project. Students gain skills in physics, math, astronomy, programming, data visualization, and data science.

Members of underrepresented groups in STEM are encouraged to apply

Eligible: Current juniors

Dates: June 26 – July 7 (online) & July 9 – August 6 (residential)

Location: Hybrid (two weeks virtual & four weeks residential on the Yale campus)

Cost: \$6,900 (excludes transportation fees; need-based financial aid available)

New: Summer Neuroscience Program at Rockefeller University

“The Summer Neuroscience Program (SNP) at The Rockefeller University is a two-week course aimed at introducing talented NYC public high school students to the brain. Led by graduate students, the program looks into the most current research in neuroscience to understand how our brain works and how it relates to our daily life. In addition to the series of highly interactive lectures, students present fun and fascinating journal articles to their classmates. Students also visit research laboratories, dissect brains, and design and conduct neuroscience experiments.”

Eligible: Students who are at least 16 years old by the start of the program

Dates: August 14 – 25

Location: Rockefeller University

Cost: Free

Application Deadline: March 12

Event Ongoing: Data for the People (D4P) Science and Medicine – How Do We Study Ourselves?

“During this season of D4P, we’ll explore the science of how we study ourselves, and how our complexity, both as biological systems and as people with unique lives and identities, creates challenges and opportunities for improving human health. We’ll draw throughlines from the past to the present, examining how historical biases and power structures have influenced the way scientific knowledge is generated, valued, and transformed into medical advances. Drawing from recent research, we’ll consider the question “how do we study ourselves?” through topics like the ethics of genome sequencing studies, the rationale for gender- and race-balanced clinical trials, and the role of social inequities in healthcare access and outcomes. We’ll also explore new, innovative practices to ask the next, even more important question: “how do we get better at it?”

Eligible: All students

Dates: January 18 – February 15 (Wednesdays from 5 – 6 pm)

Location: Virtual

Cost: Free

Application Deadline: Rolling Basis

Early Deadline Approaching: International Young Researchers' Conference Medicine and Research Summer Program

“The Medicine and Research Summer Program hosted by the Columbia University Vagelos College of Physician and Surgeons (VP&S) is a 9-week summer program featuring physicians, researchers, and medical students at Columbia University who teach about diverse topics of medicine. Students will learn how to take a patient history, interview several standardized patients, engage in ethical discussions, and study human anatomy. In addition, students will learn research methods for finding sources, analyzing data, and writing a manuscript. This summer features an additional Brain Intensive focused on Neurology, Neurosurgery, and Psychiatry where students will learn about anatomy, diagnoses, and patient experiences.”

Eligible: All students

Dates: June 24 - August 19 (10:30 AM - 1:00 PM EST)

Location: Virtual

Cost: \$300 - \$400 (depending on the deadline)

Deadline Approaching: Joint Science Education Project (JSEP) Program

The two-week virtual Joint Science Education Project Program (JSEP) based in Greenland takes place in late June and July and is open to current juniors who are American citizens. Program Activities: “U.S. students complete hands-on modules and a group research project. A series of interactive modules led by Dartmouth graduate students and faculty introduce them to various topics in polar research (e.g., snow and ice physics; cold engineering; ecology of soils, plants, and animal life; the human dimensions of Arctic change). U.S. students then complete an inquiry-based research project based on topics of interest under the mentorship of a graduate student or faculty instructor. We host a virtual project symposium at the end of the program for students to share their work with a broader audience.”

Eligible: All current juniors who are American citizens

Dates: June – July 2023 (field program) OR July 24 – 28 (remote program)

Location: Greenland (field-based JSEP) or virtual (remote JSEP)

Deadline Today: Wingspan Arts Summer Conservatory

“Wingspan Arts is returning for summer 2023 to explore theater and musical theater with students. The Wingspan ensemble is for high school students who love theatre and look forward to exploring more challenging work to broaden their theatrical skillset. Students take a wide variety of specialized classes, focusing on both skills-building and exposure to the professional art world. The goal of the Ensemble is to enable our students to expand their range and find new depth in their work. Ensemble students focus on less frequently produced plays and musicals: In past years, the Ensemble has performed shows such as Merrily We Roll Along, Ragtime, Twelfth Night, The Heidi Chronicles, and The Laramie Project. Students are cast the first week in either the play or the musical, which the directors decide.”

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: hblumm@stuy.edu

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at hblumm@stuy.edu with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
