b. MEDICAL / LIFE SCIENCES

9. THEATER, WRITING, MUSIC, PERFORMING ARTS, VIDEO

10. CONTESTS & COMPETITIONS

11. OPPORTUNITY LISTS AND RESOURCES

12. SCHOLARSHIPS

There are numerous free virtual & in-person ‘one-off’ events for high school students that focus on specific topics or fields, such as STEM, Environmental Science, Art, Careers, college admissions, and more. In addition to the interesting workshop presentations & content, these provide excellent networking opportunities for students to follow up & connect with experts & professionals in their areas of interest.

Some upcoming events focus on **Marine & Environmental Science College/Career Information** (tomorrow, Saturday, March 12th!), an **Internship Prep Workshop** (3/16), **free teen gallery tours at MOMA** (3/16), **Engineering & Computer Science events for female students** (3/26 & 4/9), and **college admissions/financial aid sessions** (3/23 and 3/29).

And keep in mind that the citywide **Summer Youth Employment Project** (SYEP) application has been posted online (see BUSINESS section for details).

This program is open to all high school students, and provides paid opportunities in a wide variety of settings. Students are selected by lottery, but they must apply & select specific ‘providers.’ Most students should consider applying even if they apply to other programs— just in case their other options don’t work out.

Here are some other highlights for this week:

---In the STEM section, the free **Goals for Girls Summer STEM Program** for current 9th-grade female students has extended their deadline to March 21st. The **Columbia University Engineering the Next Generation (ENG)** summer program welcomes applications from current juniors, with a March 21st application deadline. And female students may also apply to the free **Kode with Klossy** computer science program.

For ease of use, these newsletters are organized by different categories, such as Academic Programs, Business & Jobs, Community Service, and so on.

New items always will be listed first in every category, followed by those with approaching deadlines (***Deadline Approaching***).

As always, students and parents should feel free to contact Harvey Blumm for advice & assistance at: hblumm@stuy.edu

Questions, suggestions, and information about other opportunities are always welcome and appreciated, and may be sent to Internship/Opportunity Coordinator Harvey Blumm at: hblumm@stuy.edu - we will share your helpful information with the Stuy community!

National Labor Relations Board Student Ambassador Program

“The National Labor Relations Board is a federal agency that enforces the National Labor Relations Act. Through the NLRB’s **Student Ambassador Program**, students will get to engage with NLRB attorneys and investigators, and will learn about the rights of workers and the responsibilities of employers and unions. Students will complete a learning phase and then students will get the opportunity to create a public facing project that the NLRB will help shape and promote. Each student will be assigned an attorney or investigator as a mentor for the public facing project.

Examples of a public facing project can be an article in a student or local newspaper or a presentation with an NLRB representative in a class or conference. This Program is a wonderful opportunity for students to develop familiarity with the law, law enforcement, and federal agencies. Equally as important, students will get the chance to create a project centered on what they have learned. They will develop their project skills, use their creativity, and step forward as leaders. At the end of the Program, they will receive a Certificate of Accomplishment.”
