Questions, suggestions, and information about other opportunities are always welcome and appreciated, and may be sent to Internship/Opportunity Coordinator Harvey Blumm at: hblumm@stuy.edu - we will share your helpful information with the Stuy community!

The **CUNY College Now** program offers free college-level classes to high school juniors & seniors, and, for some campuses, sophomores as well. These typically meet after-school or on weekends, are in-person or hybrid, and provide an excellent opportunity to study a wide variety of subjects & fields that may be of interest. There

are separate fall, spring, and summer terms, and many spring term applications are now available – check the ACADEMICS section to learn more.

College Now also offers **STEM Research Academy** programs, which can run during the spring & summer terms, and are available to juniors (Baruch College) or, in some cases, to sophomores (City Tech in Brooklyn) as well.

And, for all students with an interest in Neuroscience, the free **BraiNY Bunch** program – in the STEM/MEDICAL category - offers their next monthly virtual presentation this coming Sunday, 11/6, at noon (don't forget to set clocks back an hour on Sunday morning!).

Ship-to-Shore Tour: Climate Science in Action

“See how climate science discoveries are made! The JOIDES Resolution (JR) is a research vessel that drills into the ocean floor to collect and study sediment samples that provide scientists with a trove of information about Earth’s climate history. In this event, researchers currently aboard the JR will livestream from “ship to shore”—from their current location off the coast of Portugal to the Climate Museum Pop-Up. They will give a tour of the vessel and explain how they use data from these ocean floor samples to better understand climate change, geology, and Earth’s history. We will also be joined in-person by Dr. Gisela Winckler of Columbia University’s Lamont-Doherty Earth Observatory, who was the Co-Chief Scientist of a major international JR expedition in 2019. Dr. Winckler will moderate the livestream and field additional climate science questions from the audience. This event is intended for all ages and will include kid-friendly interactive activities.”

Postcard Poetry: A High School Writing Workshop for Climate Action

“Calling all high school poet-activists! Join us for a session of poetry writing and climate action as we counter political apathy with poetry! Through a poetry-writing exercise inspired by artist David Opdyke’s work, we will address postcards to our elected representatives that we will fill with poetry communicating, in human terms, the urgency of action on climate change. After the conclusion of the program, these postcards will be mailed, and we hope to inundate our elected leaders with poetry!

Participants will produce as many postcard poems as time allows, learn about the climate crisis and how the visual and literary arts can meaningfully engage the crisis, meet the artist, and take part in this direct-action campaign.”

Eligible: All students

***New:* Future Engineers Challenges**

“Future Engineers hosts online innovation challenges for K-12 students. In 2014, Future Engineers launched its inaugural 3D printing in space challenge, which produced historic achievements including the first student-designed 3D print in space. Subsequently, Future Engineers launched a multi-challenge platform in 2018 capable

of hosting STEAM challenges of all kinds. All challenges are free for student/classroom participation.”

1- We Heart Veterans Pin Design

“Your challenge is to create a digital 3D model of a wearable pin to be 3D printed and distributed to U.S. veterans at the National Veterans Memorial and Museum in Columbus, Ohio. Your pin should be original and designed to show appreciation or gratitude for veterans of any U.S. military service branch. Finalists will also each receive five prints of their design and a \$100 gift card toward a professional 3D print. The challenge winners (2 grand prize winners total) will win a trip for two to Columbus, OH, to attend a special event on Memorial Day at the National Veterans Memorial and Museum. Each winner will also receive a 3D printer donated to the school, library, or organization of their choice!”

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: hblumm@stuy.edu

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at hblumm@stuy.edu with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
