This week's edition includes several excellent and interesting new events & opportunities – **many have April 1 deadlines- so please explore them ASAP.**

For example:

--In the STEM section, all students may join the online **Marine Biology/Environmental Sciences Career & College Fair** (4/3), and all female students may apply to the **Tech Scholars Video Games** workshops during spring break – the deadline is **March 25!**

--In the area of Academics, both **Hunter College & City College** offer free summer STEM programs.

--In the Leadership/Government section, check out the **Harvard International Relations Summer** three-day program, and also the new **Animal Rights** project.

--In the Business section, the **Cisco Corporation** invites students to explore STEM careers and topics via its Externship program.

--And, for Community Service, students who enjoy writing are welcome to apply to the **NYC Chess Connections writing internship** opportunity.

Please start exploring your options and begin applying to whichever fit your interests & talents – the students who end up with the best options are usually those who focus early – **please do not procrastinate!!** All students and parents are always welcome to contact Harvey Blumm at hblumm@stuy.edu for advice & assistance.

For ease of use, these newsletters are organized by different categories, such as Academic Programs, Business & Jobs, Community Service, and so on.

New items always will be listed first in every category, followed by those with approaching deadlines (***Deadline Approaching***).

Questions, suggestions, and information about other opportunities are always welcome and appreciated, and may be sent to Internship Coordinator Harvey

Blumm at: hblumm@stuy.edu - we will share your helpful information with the Stuy community!

The **Program in Algorithmic and Combinatorial Thinking (PACT)** is a virtual summer program consisting of guest lectures & discussions that introduce students to various topics in theoretical computer science, discrete mathematics and algorithms, computer science, and more.

“The program teaches students about the mathematics and algorithms fundamental to the computer science field. Many summer programs teach high school students programming and application development, but this five-week intensive course is one of very few with a theoretical and proof-based emphasis. The only requirements to participate are high school algebra, the willingness to work hard and be challenged, and, above all, the desire to learn.”

Eligible: All 10th, 11th, and 12th graders

Dates: June 28 – July 30

New Application Deadline: March 26

Cost: \$1,500 – limited financial support available

Summer Neuroscience Program at Rockefeller University

This is a selective summer neuroscience program for high school students (16 and older). It includes classroom sessions and hands-on projects. Motivated, mature, and inquisitive applicants are encouraged to apply.

“The Summer Neuroscience Program (SNP) at The Rockefeller University is a two-week course aimed at introducing talented NYC public high school students to the brain. Led by graduate students, the program takes a look at the most current research in neuroscience in an effort to understand how our brain works and how it relates to our daily life. In addition to the series of highly interactive lectures, students present fun and fascinating journal articles to their classmates. Students also visit research laboratories, dissect brains, and design and conduct neuroscience experiments.”

Eligible: Students who are 16 or older by August 16

Dates: August 16 – 27

Location: TBA

Application Deadline: March 21

Sophie Davis Medical School Mentorship Program

“The Health Professions Mentorship Program requires a two year commitment and includes two four-week summer sessions following your sophomore and junior years of high school and monthly Saturday sessions. Students will

conduct a community-based project in which they will take part in recognizing challenges, and developing solutions to health care problems in New York City. Students observe and discuss the social and economic determinants of health and disease and explore how different health care professionals address these issues to improve the health of communities.

Mentorship sessions include presentations, group seminars, and problem-solving experiences led by CUNY School of Medicine faculty and students. Topics include current health challenges as well as an overview of the specific career paths designed to address them. During the Fall, Winter, and Spring seminars, medical students mentor and help high school students build the knowledge and skills needed to become a successful college student.”

Eligible: All Sophomores

Dates: Summers 2021 & 2022 and Saturdays during the 2021-2022 school year.

Location: City College – 160 Convent Avenue, Manhattan

Application Deadline: **April 1**

Cost: Free

The **Centers for Disease Control Disease Detective Camp** in Atlanta is a free one-week summer public health program.

“The *CDC Museum Disease Detective Camp* teaches attendees the fundamentals of CDC’s work: the field of public health and the science of epidemiology. The camp does not have a medical treatment focus. While we do briefly discuss the pathology of some diseases, most of the time is spent focused on the collection and analysis of data and the use of that data to improve people’s health. The camp also covers the many different career options available within public health, including

medical doctors, so if you are interested in medicine, this camp could be a good learning opportunity for you.”

For the possible in-person format, transportation & lodging must be arranged by the student’s family. Space is limited, so interested students should apply early.

Eligible: All current sophomores & juniors who will be 16 by the start of camp.

Dates: Two identical sessions: **June 21 – 25** and/or **July 19 – 23**

Location: Atlanta, Georgia and/or Online (to be determined by May 3)

Application Deadline: **April 2** – capacity is limited.

Cost: Free – Students must provide their own housing, meals, and transportation
