For ease of use, these newsletters are organized by different categories, such as Academic Programs, Business Internships & Jobs, STEM Opportunities, Community Service, and so on.

Here are some highlights for this week:

In the STEM/MEDICAL section, the **Summer Health Internship Program (SHIP)** welcomes applications from current students 16 and older (by summer) with an interest in health care. There are two related programs, one for students who live or attend school in Manhattan/Staten Island & one for those in the Bronx or Westchester. Also, the **Weill Cornell/Meyer Cancer Center summer program** is open to current 10th and 11th grade students.

And, in the LEADERSHIP/LAW section, both the **Manhattan and Brooklyn District Attorney** offices offer in-person summer internships (sophomores and older). The application deadline for the Brooklyn D.A. is **February 5th**!

Questions, suggestions, and information about other opportunities are always welcome and appreciated, and may be sent to Internship/Opportunity Coordinator Harvey Blumm at: hblumm@stuy.edu - we will share your helpful information with the Stuy community!

And, as always, students and parents should feel free to contact Harvey Blumm for advice & assistance: hblumm@stuy.edu

National Labor Relations Board Student Ambassador Program

“The National Labor Relations Board is a federal agency that enforces the National Labor Relations Act. Through the NLRB’s **Student Ambassador Program**, students will get to engage with NLRB attorneys and investigators, and will learn about the rights of workers and the responsibilities of employers and unions. Students will complete a learning phase and then students will get the opportunity to create a public facing project that the NLRB will help shape and promote. **Each student will be assigned an attorney or investigator as a mentor for the public facing project.**”

Examples of a public facing project can be an article in a student or local newspaper or a presentation with an NLRB representative in a class or conference. This Program is a wonderful opportunity for students to develop familiarity with the law, law enforcement, and federal agencies. Equally as important, students will get the chance to create a project centered on what they have learned. They will develop their project skills, use their creativity, and step forward as leaders. At the end of the Program, they will receive a Certificate of Accomplishment.”

Program Ongoing: Data for the People (D4P) Science and Medicine – How Do We Study Ourselves?

“During this season of D4P, we’ll explore the science of how we study ourselves, and how our complexity, both as biological systems and as people with unique lives and identities, creates challenges and opportunities for improving human health. We’ll draw throughlines from the past to the present, examining how historical biases and power structures have influenced the way scientific knowledge is generated, valued,

and transformed into medical advances. Drawing from recent research, we'll consider the question "how do we study ourselves?" through topics like the ethics of genome sequencing studies, the rationale for gender- and race-balanced clinical trials, and the role of social inequities in healthcare access and outcomes. We'll also explore new, innovative practices to ask the next, even more important question: "how do we get better at it?"

Eligible: All students

NYU ARISE STEM Research Program

“In this free, five-week summer research program in STEM, selected students will receive a stipend of at least \$750, conduct authentic research in labs while being mentored by a graduate student/faculty member, and get training in the college application process, speaking/presentation skills, and skills such as scientific ethics, contemporary issues in scientific inquiry, data collection/analysis, research practices, and lab safety. The subject areas offered are Anthropology, Biology, Biomedical Engineering, Chemical and Biomolecular Engineering, Civil and Urban Engineering, Computer Science and Engineering, Electrical and Computer Engineering, and Mechanical and Aerospace Engineering.”

Eligible: Current sophomores and juniors

Dates: June 23 (orientation) & June 28 – August 11 (program duration)

Location: NYU Tandon Brooklyn campus (1 MetroTech Center, 19th floor)

Cost: Free

Application Deadline: **March 1** (application deadline) & **March 5** (recommender responses deadline)

High School Apprentice Program

“The High School Apprentice Program offers paid summer science & engineering research opportunities, sponsored by the U.S. Army. Local sites include NYU, CUNY, Adelphi University, and the New Jersey Institute of Technology in Newark. Students receive an authentic science & engineering experience as they work alongside Army Research Office-sponsored university researchers and learn laboratory methods & develop skills in Army-critical research areas. Students **earn a stipend** in recognition of their work.”

Eligible: Current sophomores and juniors

Dates: May to late August

Locations: Various throughout USA

Cost: Free

Program in Mathematics for Young Scientists (PROMYS)

“PROMYS is an six-week summer program designed to encourage students to explore the world of mathematics. In addition to regular program activities & their weekly lectures, students will have access to a community of undergraduate counselors and senior mathematicians.”

Eligible: Rising sophomores, juniors, and seniors

Dates: July 2 – August 12

Location: Boston University

Cost: \$6,000 (full and partial need-based aid available; students whose families make under \$80,000 annually can participate for free)

Application Deadline: **March 5**

Program in Algorithmic and Combinatorial Thinking (PACT)

“The program teaches students about the mathematics and algorithms fundamental to the computer science field. Many summer programs teach high school students programming and application development, but this five-week intensive course is one of very few with a theoretical and proof-based emphasis. The only requirements to participate are high school algebra, the willingness to work hard and be challenged, and, above all, the desire to learn.”

Eligible: Rising sophomores, juniors, and seniors

Dates: June 26 – July 28

Location: Virtual (in-person option TBD)

Cost: \$1,850 (virtual), in-person tuition TBD (some financial aid available)

Application Deadline: **March 10**

The Yale Summer Program in Astrophysics (YSPA)

YSPA is a research program in which students spend two weeks virtually learning skills in astronomy and programming. Then, they are invited to the Yale campus for four weeks to develop a complex astrophysics modeling project. Students gain skills

in physics, math, astronomy, programming, data visualization, and data science.

Members of underrepresented groups in STEM are encouraged to apply

Eligible: Current juniors

Dates: June 26 – July 7 (online) & July 9 – August 6 (residential)

Location: Hybrid (two weeks virtual & four weeks residential on the Yale campus)

Cost: \$6,900 (excludes transportation fees; need-based financial aid available)

NYU G-STEM Program

“NYU offers current 11th grade students entry into G-Stem, a five-week summer program in math, science, & technology. The program includes classes, field trips, and development/presentation of a research topic. Students are paired with a STEM professor or researcher and work on individual projects in a field of their choosing.”

Eligible: All 11th grade students (priority given to under-represented students, but all may apply)

Dates: July 3 - August 11

Location: NYU G-STEM Campus (251 Mercer Street, Manhattan)

Cost: \$5,000 – Financial aid is available

Event Ongoing: Data for the People (D4P) Science and Medicine – How Do We Study Ourselves?

“During this season of D4P, we’ll explore the science of how we study ourselves, and how our complexity, both as biological systems and as people with unique lives and identities, creates challenges and opportunities for improving human health. We’ll draw throughlines from the past to the present, examining how historical biases and power structures have influenced the way scientific knowledge is generated, valued, and transformed into medical advances. Drawing from recent research, we’ll consider the question “how do we study ourselves?” through topics like the ethics of genome sequencing studies, the rationale for gender- and race-balanced clinical trials, and the role of social inequities in healthcare access and outcomes. We’ll also explore new, innovative practices to ask the next, even more important question: “how do we get better at it?”

Eligible: All students

Dates: Weekly until February 15 (Wednesdays from 5 – 6 pm)

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: hblumm@stuy.edu

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at hblumm@stuy.edu with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
