Now that 2023 is here, Stuy students (with their parents' support & encouragement) should definitely be scanning the relevant sections of this newsletter for summer (and/or spring) programs, courses, internships, and any other possible activities that match their interests & talents. Let me know if you have any questions, and I am happy to meet in-person or via Zoom; some program deadlines are already not far away!!

In this week's EVENTS section, there are several upcoming summer program Fairs open to all students and parents. The in-person **National Summer Programs Fair** is set for John Jay College in Manhattan on the evening of January 24th; pre-registration is required. And there is a virtual **Summer Pre-college Academics Programs** event on January 28th.

For students interested in the ACADEMICS category, keep in mind that there are three free CUNY or NY State-sponsored spring & summer programs for high school students, with different eligibility requirements. **CUNY STEM Research Academies** are also offered at CUNY campuses around the city, often for current 10th and 11th graders. And the STEM-focused **STEP (Science & Technology Entrance Program)** is open to all grades, with a focus on students from lower-income and under-represented backgrounds. You can find links to all three options in the ACADEMICS category.

In the STEM/Medical sections, all 10th grade and up students who identify as female or nonbinary may apply for the in-person **Perry Initiative** event with doctors & other medical professionals at NYU in March; check it out soon, as spots fill up quickly! (There are also the periodic virtual Perry Initiative sessions – the deadline to apply for the next one is **January 8th**!

And the **Goals for Girls** summer STEM program for 9th graders who identify as female is now open for registration – there is a virtual Information Session scheduled for tomorrow, **January 7th**!

Information Session Approaching: Inspiring Girls* Summer Expeditions

“Inspiring Girls* Expeditions is a tuition-FREE, 12-day wilderness science education program for 16-18-year-old high school cisgender girls and transgender, agender, Two Spirit, nonbinary, intersex, and genderqueer youth. All interested students are encouraged to apply, even (especially) if they don’t feel like they fit the “typical” image of a scientist or outdoors person. The students we most want to connect with often believe they are not qualified enough for our program, but we know from years of experience that the support of a trusted adult (like a mentor or teacher) can make all the difference in a student finding the confidence to apply.

The aim of this program is to provide each participant with a unique opportunity to move beyond their comfort zone through field-based science research projects, wilderness exploration, and nature-based art. We do not consider a student’s grades in our selection process; we just want to connect with participants ready to explore their own curiosity, creativity, and courage. In the summer of 2023 (Covid permitting), supportive, experienced, and knowledgeable guides and scientists will lead participants in mountaineering, kayaking or packrafting in Alaska, or rock climbing in Colorado. Please note that travel outside of the USA is not required to participate in this program.”

New: 2023 Quantum Computing Winter School

“The Quantum School is an intensive introductory program for high school and undergraduate students to learn about the exciting interdisciplinary field of quantum computing. Offered virtually with live instruction, students will learn the foundations of quantum computing, including quantum mechanics, quantum circuits, and quantum algorithms and protocols, all while gaining familiarity with Microsoft’s quantum computing language, Q#. Each day, students will participate in a lecture and a lab. Additionally, they will hear from leading quantum experts in industry to learn about career pathways in quantum computing. Guest speakers and lab tours are also offered. No prior quantum knowledge is expected or required, but a basic computer science knowledge of variables, functions, and loops is necessary. Upon completion, students will receive a certificate of completion.” Email quantum@the-cs.org with any questions

Deadline Approaching: Wingspan Arts Summer Conservatory

“Wingspan Arts is returning for summer 2023 to explore theater and musical theater with students. The Wingspan ensemble is for high school students who love theatre and look forward to exploring more challenging work to broaden their theatrical skillset. Students take a wide variety of specialized classes, focusing on both skills-building and exposure to the professional art world. The goal of the Ensemble is to enable our students to expand their range and find new depth in their work. Ensemble students focus on less frequently produced plays and musicals: In past years, the Ensemble has performed shows such as Merrily We Roll Along, Ragtime, Twelfth Night, The Heidi Chronicles, and The Laramie Project. Students are cast the first week in either the play or the musical, which the directors decide.”

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: hblumm@stuy.edu

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at hblumm@stuy.edu with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
