## ONE Lab Summer Studio of Environmentally-Focused Design

“**ONE Lab** is a summer enrichment program that lets high school students explore the nexus between environmental concerns and creative / design practices, including sustainable fashion, architecture, and bio design. ONE Lab is a project of [Terreform ONE](#), a non-profit think-and-do-tank dedicated to fighting environmental degradation through innovative creative technology.

ONE Lab Summer Studio is online for 2021, allowing us to broaden the scope in lecturers, tours and projects beyond our NYC base. We also make sure students have off-screen time: they do supervised work with our Studio in a Box at their home workspace as well as outside project-related work. Our hours allow students from across the continental US, Canada & Latin America to participate.

This program is creatively and intellectually stimulating, giving teens the chance to be proactive on climate concerns, introducing them to like-minded peers along with world-renowned design and climate experts, and jumpstarting their road to college and career exploration. They leave with a student evaluation and design portfolio, all great material for college applications.

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.
