September 19, 2022

Dear Stuyvesant Math Student,

You have a second opportunity to earn credit for the summer assignment. If you were not able to complete it, or if you were only able to complete part of it, you will have until 8:00 a.m. on September 26, 2022 to work on the assigned exercises. You have the ability to earn a maximum grade of 80% on each of the topics you have not yet completed. Remember, this assignment will count for two weeks' worth of homework assignments in your math class. If you have already begun the assignment, you may continue working on it. If you have not enrolled yourself in the appropriate DeltaMath course for this school year (SY22-23), please follow the steps below.

Use the following instructions to log in to DeltaMath and complete the assignment:

If you do not have a DeltaMath account:

1. Go to deltamath.com
2. Click "Create New Account" and select the "Student" option
3. When the dialogue box appears, enter in the teacher code "595791"
4. You should then see a dialogue box.
5. Select the DeltaMath course that corresponds to the class in which you are currently enrolled. If you are currently enrolled in geometry, for example, select "Stuyvesant Geometry SY22-23."
6. Accurately enter your name, OSIS (Student ID), and Stuyvesant (stuy.edu) email address. Choose a password that you will remember, and click "Create Account"

If you already have a DeltaMath account:

1. Click "Tools"
2. Click "Manage Login and Teachers"
3. Click "Add Teacher"
4. Enter the teacher code: 595791
5. Select the DeltaMath course that corresponds to the class in which you are currently enrolled. If you are currently enrolled in geometry, for example, select "Stuyvesant Geometry SY22-23."

Please contact your teacher or me if you have any questions or concerns.

Sincerely,

Eric Smith
Assistant Principal of Mathematics
Stuyvesant High School
