2.   Explore Engineering Innovation (EEI)

"During the course,

students complete activities in civil, chemical, electrical/computer,

mechanical engineering, and materials science. By applying knowledge of math

and science to labs and hands-on projects, the concepts learned in high school

classrooms are linked to real-world practice. Additionally, students'

confidence grows as they attend college-level lectures, solve problems, test

theories, and ultimately learn to think like engineers."

Eligible: Current sophomores and juniors, and seniors (exceptional freshmen

may be considered, but will have less priority)

Dates: June 24 - July 26 (virtual) OR July 1 - 26 (in-person)

3.   Sustainable Energy Engineering (SEE)

"How can we design and

implement new sustainable energy technologies that are resilient and economical, and that may be incorporated into the existing power grid? To answer these questions, we need to take a deep look the ways we currently use energy so that we may find ways to reduce our use, and we must study the science and engineering concepts behind our current methods of energy production and distribution, as well as the impact of policy on our ability to make change. This course will introduce students to these topics, giving them the fundamental knowledge necessary to understand the challenges and opportunities in sustainable energy engineering, and to decide whether this is a field they want to pursue."

Eligible: Current sophomores and juniors, and seniors (exceptional freshmen may be considered, but will have less priority)

Dates: July 1 - 26

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: hblumm@stuy.edu

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at hblumm@stuy.edu with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
