Deadlines Approaching: John Hopkins University Summer Programs

“John Hopkins Engineering Innovation Pre-College Programs welcomes talented math and science students interested in engineering this summer. Programs include studying a variety of disciplines such as sustainable energy engineering, chemical, electrical, mechanical, materials science, and biomedical engineering. Online, in-person, and residential programs are offered. Join the program staff and other students to discuss the incredible on-hands labs and activities you will experience, details about the admissions process, and college credit information.”

1. General Pre-College Programs

John Hopkins University

is offering several programs for high school students through which students can explore Foundations of Medicine and Health, STEM, Psychology and Brain Sciences, Social Sciences, Humanities, Film and Media, and Preparing for College.

Eligible: All current students with a minimum 3.0 GPA

Dates: Various (late June - August)

Location: Virtual and in-person options available

Cost: TBD (additional \$85 application fee)

Application Deadline: **Rolling Basis**

2. Explore Engineering Innovation (EEI)

“During the course,

students complete activities in civil, chemical, electrical/computer, mechanical engineering, and materials science. By applying knowledge of math and science to labs and hands-on projects, the concepts learned in high school classrooms are linked to real-world practice. Additionally, students’ confidence grows as they attend college-level lectures, solve problems, test theories, and ultimately learn to think like engineers.”

Eligible: Current sophomores and juniors, and seniors (exceptional freshmen may be considered, but will have less priority)

Dates: June 24 - July 26 (virtual) OR July 1 - 26 (in-person)

Location: Virtual and in-person (JHU Homewood Campus in Baltimore) options available

Cost: \$3,350 (additional \$85 application fee, other fees applicable for residential students; financial aid available only for online/commuter students)

3. Sustainable Energy Engineering (SEE)

“How can we design and

implement new sustainable energy technologies that are resilient and economical, and that may be incorporated into the existing power grid? To answer these questions, we need to take a deep look the ways we currently use energy so that we may find ways to reduce our use, and we must study the science and engineering concepts behind our current methods of energy production and distribution, as well as the impact of policy on our ability to make change. This course will introduce students to these topics, giving them the fundamental knowledge necessary to understand the challenges and opportunities in sustainable energy engineering, and to decide whether this is a field they want to pursue.”

Eligible: Current sophomores and juniors, and seniors (exceptional freshmen may be considered, but will have less priority)

Dates: July 1 - 26

Location: JHU Homewood Campus in Baltimore

Cost: \$3,350 (additional \$85 application fee, other fees applicable for residential students; financial aid available only for online/commuter students)

If you are selected for or enroll in any of the above opportunities, please inform Mr. Blumm ASAP at: hblumm@stuy.edu

Whichever extra-curricular program, internship, or community service activity a student may participate in, they should be sure to ask their supervisor/coordinator to write a letter of appreciation before it concludes – it is sometimes very difficult to obtain this later on. And the more personal & detailed the letter, the better. A copy should then be submitted to your counselor.

Please feel free to contact Harvey Blumm at hblumm@stuy.edu with any questions or feedback on any items in this message, or with any suggestions or concerns you may have. **And always feel free to share any information about opportunities that may be of interest to our parents, teachers, or students.**
